

NO DATA CENTER!

WHAT?

Buildings that house computer servers.
Storage of massive amounts of information.

Affects

Rural Hall residents and businesses.

WHO?

Community garden, schools, and churches.

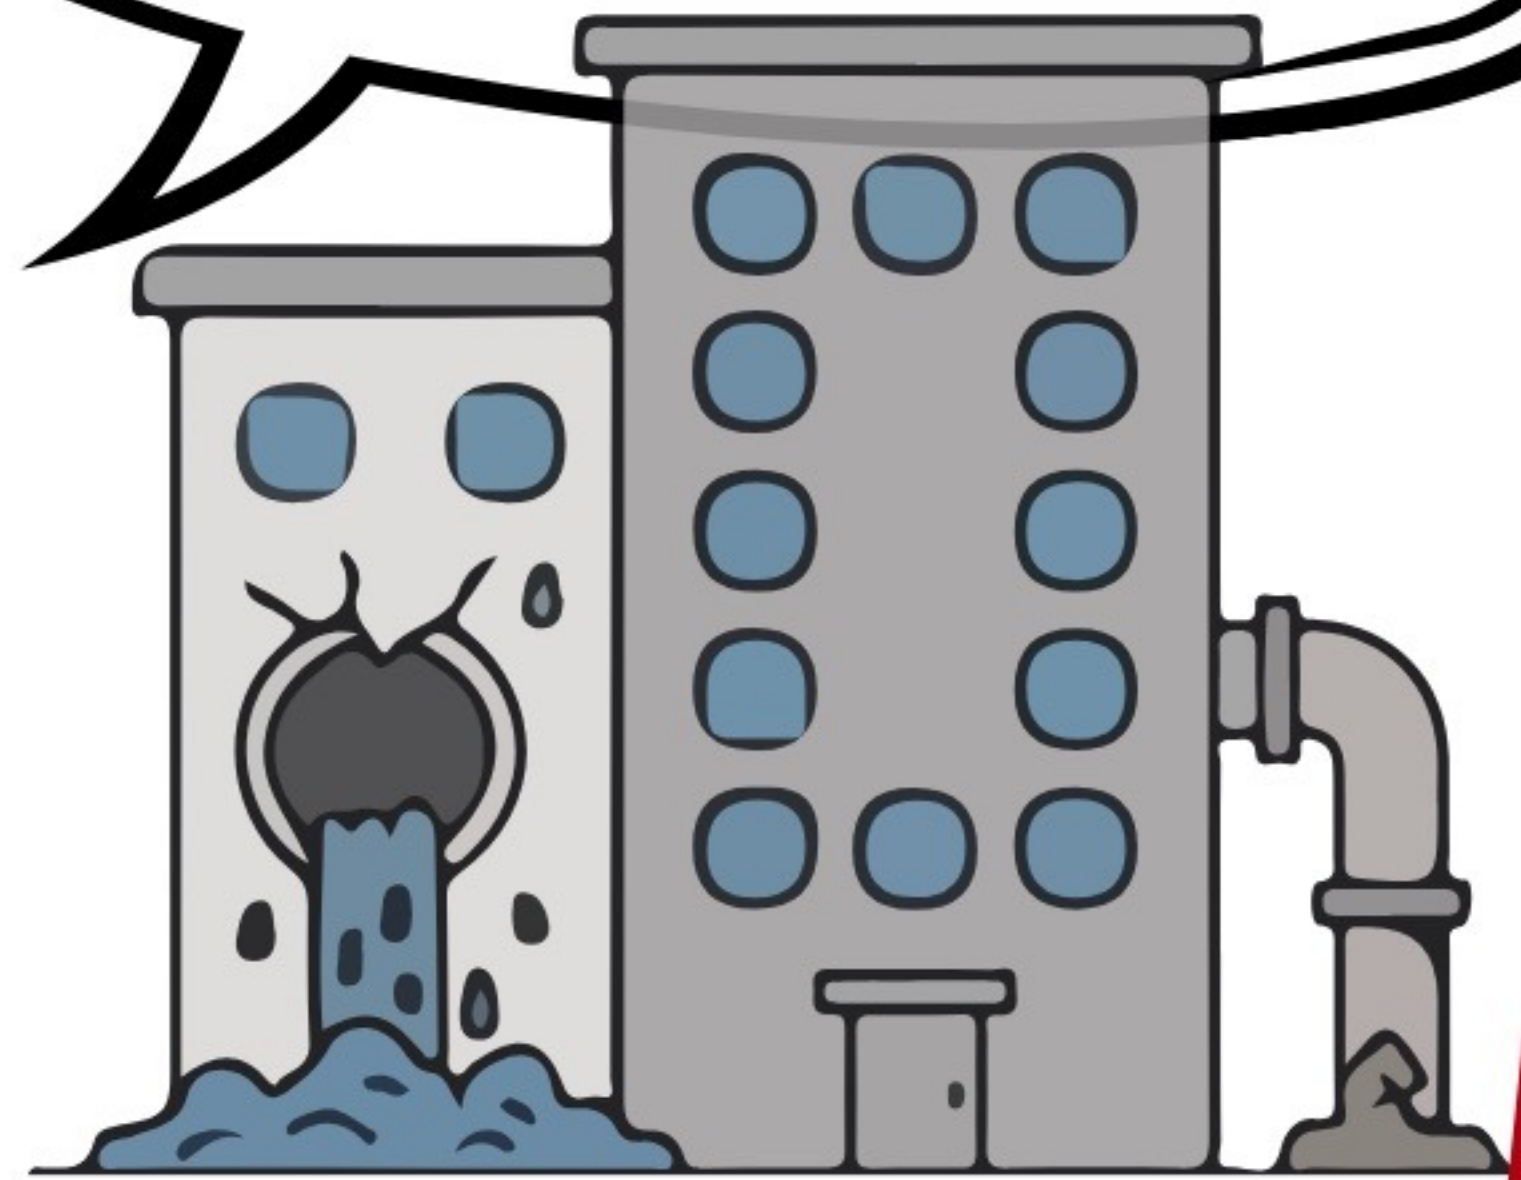

WHERE?

On a 130 acre century farm.

-Owners of the farm are petitioning for a rezone to "Light Industrial" for the Data Center to build.

400ft from some back yards.

See map on back-->

WHY?

Water- uses 600,000 gallons a day. Sediment released in sewer.

Electric- studies show data centers increase residents utilities by 25% annually. Strains the electrical grid.

Noise- Data centers emit a constant hum at approx **60-70dbs**.

Property Values- home sales and property values decrease near data centers.

Fumes- 6 acres of diesel/gas generators emit toxic fumes.
